(b) and (c) The Report brought out by the National Institute of Educational Planning and Administration consists of a collection of review papers on different themes. In the chapter on Education of Dalit children by Geetha B. Nambisan and Mona Scdwal, the authors made this observation on teachers and SC children quoting a previous study conducted in 1996 by Jean Drczc and Haris Gazdar. These arc purely the views of the authors and do not represent the position either of NIEPA or the Government of India, as already mentioned in the beginning of the report itself.

In addition to the various steps of protective discrimination implemented by the Government in favour of the SC & ST students, complaints of this nature, if any, are stringently dealt with in the respective States/Institutions.
